USER'S GUIDE

Wi-Fi® Home Video Camera

**Models: FOCUS66-B, FOCUS66-B2, FOCUS66-S, FOCUS66-S2,
FOCUS66-W, FOCUS66-W2**

The features described in this user's guide are subject to modifications without prior notice.

Welcome...

to your new Motorola Wi-Fi® Home Video Camera!

Thank you for purchasing your new Motorola Wi-Fi® Home Video Camera. If you have always wondered what happens when you are away, wonder no more. Now you can monitor your children, pets or property with this easy to use system. You can install the Camera only from your iPhone®/iPad® or devices for Android™ and view the Camera video from your PC or Notebook, as well as devices for Android™ or iPhone®/iPad®.

Please keep your original dated sales receipt for your records. For warranty service of your Motorola product, you will need to provide a copy of your dated sales receipt to confirm warranty status. Registration is not required for warranty coverage.

For product related questions, please call:

1. Safety Instructions

WARNING:

STRANGULATION HAZARD - In case this unit is being used to monitor infants or children, keep the unit and adapter cord more than 1 metre from the cot and out of their reach. Never place camera or cords within a cot or near a bed. Secure the cord away from children's reach. Never use extension cords with AC Adapters. Only use the AC Adapters provided.

As with any electrical device, supervision of your pet's usage should be exercised until your pet is acclimated to the product. If your pet is prone to chewing, we strongly recommend you keep this and all other electrical devices out of its reach.

Wi-Fi® CAMERA UNIT SET UP & USE:

- Determine a location for the Wi-Fi® Camera Unit that will provide the best view of your baby in the cot.
- Place the Wi-Fi® Camera Unit on a flat surface, such as a chest of drawers, desk, shelf or wall-mount it using the keyhole slot in the camera base.
- NEVER place the Wi-Fi® Camera Unit or cords within the cot.

WARNING

This Wi-Fi® Camera Unit is compliant with all relevant electromagnetic field standards and is, when handled as described in the User's Guide, safe to use. Therefore, always read the instructions in this User's Guide carefully before using the device.

- Adult assembly is required due to small parts. Keep all small parts away from children.
- This product is not a toy. Do not allow children to play with it.
- This Wi-Fi® Camera Unit is not a substitute for responsible adult supervision.
- Keep this user's guide for future reference.
- Do not place the Wi-Fi® Camera Unit or cords in the cot or within reach of the baby (the unit should be at least 1 metre away).
- Keep the cords out of reach of children.
- Do not cover the Wi-Fi® Camera Unit with a towel or blanket.
- Test the Wi-Fi® Camera Unit and all its functions so that you are familiar with it prior to use.
- Do not use the Wi-Fi® Camera Unit near water.
- Do not install the Wi-Fi® Camera Unit near a heat source.
- Only use the power adapter provided. Do not use other power adapters as this may damage the device.
- Never use extension cords with power adapters.
- Do not touch the plug contacts with sharp or metal objects.

2. System Requirements

Web Portal

- Windows[®] systems, 7 or 8 (Java browser plug-in needed)
- Mac OS[®] version 10.7 or above
- Internet Explorer[®] version 8.0 or above
- Firefox[®] version 11.0 or above
- Chrome[™] version 18.0 or above
- Safari[®] version 5.1 or above
- Java[™] version 7 or above

Android[™] System

- Version 4.0 or above

iPhone[®]/iPad[®] iOS

- Version 7.0 or above

3. Getting started - Connecting Devices

How does it work?

When a user tries to access the Camera, our secure server authenticates the user's identity and permits access to the Camera.

3.1 Setup

Connect the Camera to the power adapter, then plug into an suitable mains power socket and make sure the power switch is in the ON position. The Camera must be within range of the Wi-Fi[®] router with which you want to connect it to. Make sure the password of the router is available for entering during the in-app setup process.

Status of LED Indication:

- Pair / Setup state: LED is red and blue and slowly flashing
- Unconnected state: LED is red and slowly flashing
- Connected state: LED is blue and always on
- Ready for connection state: LED is blue and slow flashing

Note: You can only setup via a compatible smartphone or tablet and not via a PC.

3.2 User Account and Camera Setup on Android™ Devices

What you need

- FOCUS66 camera
- FOCUS66 camera power adapter
- Device with Android™ system version 4.0 or above

3.2.1 Power on and connect the FOCUS66 camera

- Connect the FOCUS66 adapter to a suitable mains power socket, insert the power adapter plug into micro USB socket at back of FOCUS66 camera.
- Make sure that ON/OFF button is in the ON position.
- The camera's red LED blinks after the camera has finished booting. When you hear two 'beeps', this means the camera is ready for setup.

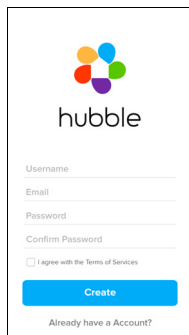

3.2.2 Download the Hubble for Motorola Monitors application

- Go to the Google Play™ Store to search "Hubble for Motorola Monitors" application.
- Download Hubble for Motorola Monitors application from Google Play™ Store and install it into your Android™ device.

3.2.3 Run Hubble for Motorola Monitors App on Android™ device

- Ensure your Android™ device is connected to your Wi-Fi® router.
- Run Hubble for Motorola Monitors application and key in your Hubble for Motorola Monitors account information, read through the Terms of Service then select “I agree to the Terms of Use” before you tap on **Create**. (Picture A1)

Note: If you have Hubble for Motorola Monitors account, please select **Already have a Account?** to go to the next step.

A1

3.2.4 Add FOCUS66 Camera to your account

- Create a new account and login.
- Tap on **Add Camera**. (Picture A2)
- Tap on **Continue**. (Picture A3)

A2

A3

- The setup instructions will appear on the following screen. (Picture A4)

A4

- Press and hold the **PAIR** button for 3 seconds at the side of FOCUS66 camera, you will then hear a beep tone and voice “Ready to start pairing” from the Camera unit, then tap on **Search for Camera**.
- The App will automatically search and connect your Camera as shown below pictures (A5 & A6) and the Blue/Red colour LED on the camera will blink.

A5

A6

- Select your Wi-Fi® Network and tap Continue, enter your password and then tap on **Connect**. (Picture A7, A8)

A7

A8

- It will take a few minutes for the Camera to connect to the Wi-Fi® network before showing the connection status (Picture A9, A10). If connection fails, please tap on the **Retry** button and repeat steps starting from 3.2.4.

A9

A10

- Tap on **Watch Live Camera** to view camera video and the Camera blue LED will blink. (Picture A11)
- Tap on Hubble logo and go back to camera list. (Picture A12)

A11

A12

3.3 User Account and Camera Setup: Working with iPhone® / iPad®

What you need

- FOCUS66 camera
- FOCUS66 camera power adapter
- iPhone® / iPad® with iOS 7.0 version or up

3.3.1 Power ON and Connect FOCUS66 camera

- Connect the FOCUS66 adapter to a suitable mains power socket, insert the plug into micro USB socket at back of FOCUS66 camera.
- Ensure ON/OFF button is pushed ON.
- Camera red LED blinks after camera has finish booting, you will hear two Beep tones which means the camera is ready to setup.

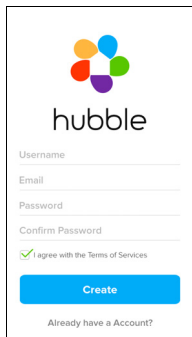

3.3.2 Download Hubble for Motorola Monitors App

- Go to the App Store to search “Hubble for Motorola Monitors”.
- Download Hubble for Motorola Monitors App and install it on your iPhone® / iPad®.

3.3.3 Run Hubble for Motorola Monitors on your iPhone® /iPad®

- Ensure your iPhone® /iPad® is connected to your Wi-Fi® Router.
- Run Hubble for Motorola Monitors application and key in your Hubble for Motorola Monitors account information, read through the Terms of Service then select “I agree to the Terms of Service” before you tap on **Create**.
(Picture i1)

Note: If you have a Hubble for Motorola Monitors account, please select **Already have a Account?** to go to the next step.

i1

i31

4.4 Camera Functions:

Working with PC/Notebook

- Go to <http://www.hubbleconnected.com/motorola/login/>
- Enter your User Name and Password and then click Login if you have already created an account.
- Click on the Camera list paired in your account via Android™ device or iPhone®/iPad® and the Camera view will appear on screen. You can easily stay connected with your favorite people, places and pets with live video streaming.
- On the website, you can change the settings by following the Menu instruction steps.

5. Procedure for resetting the Camera

Note: If your Camera is moved from one router (e.g. home) to another router (e.g. office) or you have Camera setup issues, then the Camera has to be reset. Please reset the Camera with the following procedure:

1. Slide the ON/OFF switch to ON.
2. Press and hold the PAIR button on the underside of the Camera for 5 seconds, until you hear "Ready to start pairing".
3. Release the PAIR button and wait for the Camera to complete the internal reset procedure.
4. You can add your camera again by following the steps 3.2.4 for Android device or 3.3.4 of iOS device.

6. Help

Noise interference

To avoid background noise or echoes, ensure that there is enough distance between your device and the Wi-Fi® Camera Unit.

Use of other 2.4 GHz products, such as Bluetooth® systems or microwave ovens, may cause interference with this product. Keep the Wi-Fi® Camera Unit at least 1.5m away from these types of products, or turn them off if they appear to be causing interference.

Lost connection

Check your Wi-Fi® settings. If necessary reconnect your Wi-Fi®. Ensure the Wi-Fi® Camera Unit is switched ON. Wait a few minutes to make the connection with the Wi-Fi® system.

If you forgot your password

If you do not remember your password, tap **Forgot password** and submit your e-mail address. A new password will be sent to your e-mail address immediately.

Category	Problem Description / Error	Solution
Account	I am unable to login even after registration.	Please check your user name and password.
Account	I receive an error message saying: "Email ID is not registered".	Please ensure that you have registered with us. Tap Create Account to create an account to be able to use the Wi-Fi® Home Video Baby Monitor Camera.

Account	What do I do if I forgot my password?	Click on the "Forgot Password" link on the http://www.hubbleconnected.com/motorola/login/ website OR your Android™ or iOS application. An email will be sent to your registered email address.
Account	I am unable to receive a new password although I have used the "Forgot password" option.	<ol style="list-style-type: none"> 1. The e-mail might have been sent to your Junk Mail Folder. Please check your Junk Mail Folder. 2. There might be a delay in getting your e-mail. Please wait a few minutes and refresh your email account.
Connectivity Issues	I get a message: We are having problems accessing your camera. This could be due to lack of internet connection. Please wait and try again later.	<ol style="list-style-type: none"> 1. Please try again in a few minutes. This could be because of any issue with your internet connection. 2. If the problem remains, please restart your Camera to check if this fixes the problem. 3. Please restart your Wireless Router.
Viewing Camera	When I am in "remote mode", the video stops after 5 minutes. How do I view for longer?	<p>When you are accessing your Camera via a network different from your home network (over internet) your video times out after 5 minutes.</p> <p>You can click on the Camera again from the Android™/iOS application to start streaming again.</p> <p>If you are accessing from your web-browser, then you can press on the Reload button to start viewing your Camera video stream again.</p>

Features	The sound alert setting threshold is not right.	You can Adjust Sound Sensitivity to trigger notifications under Camera Setting menu.
Connectivity Issues	My Phone application displays the following message: "Unable to connect to BMS server".	<ol style="list-style-type: none">1. Check the Wi-Fi® network strength.2. Check if you are connected to the internet by starting the phone browser and going to a website like www.google.com.3. Try again if you are successful connecting to the internet.
Setting Up	While I am adding a new camera to my account, I am not able to find any Cameras to add.	If you are trying to add a Camera which has previously been added into your account or another account, you will first have to reset the Camera. This can be done by pressing and holding the PAIR button at the bottom of the Camera for 5 seconds.
General	What are the supported browsers for accessing from my PC/ Mac®?	On PC and Mac®, we recommend to use Google Chrome. However the following browsers are also supported: PC: Internet Explorer 8 and above. Mac®: Safari.

General	What is the significance of LED flashing?	<p>A blinking LED indicates the following status:</p> <p><u>Slow blinking:</u> 1. Your Camera is in setup mode. You can add the Camera to your account in this mode. Out of the box, the Camera is in setup mode. To reset to setup mode, press and hold the PAIR button on the bottom of the Camera until you hear a beep.</p> <p><u>Slow blinking:</u> 2. The Camera is either connecting to the router or lost the link to the router. Please ensure that the Camera is in the Wi-Fi® signal range.</p> <p><u>LED is stable:</u> The Camera is connected to the Wi-Fi® network.</p>
Connectivity Issues	I am not able to access my Camera.	Please check if the Camera is within Wi-Fi® range. If the LED on your Camera is slow blinking, please try to move the Camera closer to the router for better Wi-Fi® range and try again.
Setting Up	During setup on device for Android™ and iOS, during the last step I am not able to find my Camera and the setup fails.	Please reset the Camera to setup mode and try again. Press and hold the PAIR button on the bottom of the Camera until you hear a beep. Wait for a minute for the Camera to restart. When the Camera LED is blinking, indicating that it is in setup mode. Now restart the setup from your Smartphone again.

Connectivity Issues	Even though I am accessing my Camera from the same Wi-Fi® network, I still find my Camera is shown as remote. I can only access it for 5 minutes at a time.	Please check your wireless router settings. For example, in Buffalo brand routers there is an option called Wireless Isolation. Please disable this option.
Camera	When I try to view the Camera, I get a prompt for Camera firmware upgrade. What should I do?	Please upgrade your firmware. This takes around 5 minutes. We push upgrades from time to time to improve the Camera features.
General	Which platforms are supported for accessing my Camera?	Windows® 7*, Windows® 8* *Java browser plug-in needed Mac iOS version 10.7 or above Internet Explorer® version 8.0 or above Firefox® version 11.0 or above Chrome™ version 18.0 or above Safari® version 5.1 or above Java™ version 7 or above Android™ version 4.0 or above iPhone®/iPad® iOS version 7.0 or above.
General	I do not hear sound when I am accessing a remote Camera.	You can tap on the speaker icon in the video stream screen to hear audio. By default the audio is not ON when you are accessing a remote Camera.

General	What is the meaning of "Local Camera" and "Remote Camera"?	When you are accessing your camera from the same wireless network (Home) in which it is configured, it is a local camera. When you are accessing your Camera away from your home it is a remote camera. You may be using 3G, 4G or 4G LTE or a Wi-Fi® connection outside of your home.
General	How do I download the APP for Android™ and iOS devices?	<p>Android™:</p> <ul style="list-style-type: none"> - Open Google Play App on your Android™ device. - Select Search - Type "Hubble for Motorola Monitors" - The results will have Hubble for Motorola Monitors App by Binatone - Select to install it. <p>iOS Device:</p> <ul style="list-style-type: none"> - Open iOS APP StoreSM - Select search - Type "Hubble for Motorola Monitors" - The results will have Hubble for Motorola Monitors App by Binatone - Select to install it.

Setting up	When the video is cut off, the application attempts to reconnect and and results in lost sound and choppy video.	You will need to turn off the auto lock function of your smart device to ensure continuous video/audio feeding.
Features	How many users can access the Camera at one time?	If you are accessing in local more, two users are supported, after two users all streaming will go through remote server. This allows for unlimited user access to a single Camera at one time.
Connectivity issues	I found interference caused by my other web cam devices.	Video streaming performance is related to internet bandwidth, especially if you have 2 or more video streaming devices that are working through the same router.

IN NO EVENT SHALL MOTOROLA OR BINATONE BE LIABLE, WHETHER IN CONTRACT OR TORT (INCLUDING NEGLIGENCE) FOR DAMAGES IN EXCESS OF THE PURCHASE PRICE OF THE PRODUCT OR ACCESSORY, OR FOR ANY INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES OF ANY KIND, OR LOSS OF REVENUE OR PROFITS, LOSS OF BUSINESS, LOSS OF INFORMATION OR OTHER FINANCIAL LOSS ARISING OUT OF OR IN CONNECTION WITH THE ABILITY OR INABILITY TO USE THE PRODUCTS OR ACCESSORIES TO THE FULL EXTENT THESE DAMAGES MAY BE DISCLAIMED BY LAW.

Some jurisdictions do not allow the limitation or exclusion of incidental or consequential damages, or limitation on the length of an implied warranty, so the above limitations or exclusions may not apply to you. This Warranty gives you specific legal rights, and you may also have other rights that vary from one jurisdiction to another.

Products Covered	Length of Coverage
Consumer Products	Two (2) years from the date of the products original purchase by the first consumer purchaser of the product.
Consumer Accessories	Ninety (90) days from the date of the accessories original purchase by the first consumer purchaser of the product.
Consumer Products and Accessories that are Repaired or Replaced	The balance of the original warranty or for Ninety (90) days from the date returned to the consumer, whichever is longer.

Exclusions

Normal Wear and Tear. Periodic maintenance, repair and replacement of parts due to normal wear and tear are excluded from coverage.

Batteries. Only batteries whose fully charged capacity falls below 80% of their rated capacity and batteries that leak are covered by this Warranty.

Abuse & Misuse. Defects or damage that result from: (a) improper operation, storage, misuse or abuse, accident or neglect, such as physical damage (cracks, scratches, etc.) to the surface of the product resulting from misuse; (b) contact with liquid, water, rain, extreme humidity or heavy perspiration, sand, dirt or the like, extreme heat, or food; (c) use of the Products or Accessories for commercial purposes or subjecting the Product or Accessory to abnormal usage or conditions; or (d) other acts which are not the fault of MOTOROLA or BINATONE, are excluded from coverage.

Use of Non-Motorola branded Products and Accessories. Defects or damage that result from the use of Non-Motorola branded or certified Products or Accessories or other peripheral equipment are excluded from coverage.

Unauthorised Service or Modification. Defects or damages resulting from service, testing, adjustment, installation, maintenance, alteration, or modification in any way by someone other than MOTOROLA, BINATONE or its authorised service centres, are excluded from coverage.

Altered Products. Products or Accessories with (a) serial numbers or date tags that have been removed, altered or obliterated; (b) broken seals or that show evidence of tampering; (c) mismatched board serial numbers; or (d) nonconforming or non-Motorola branded housings, or parts, are excluded from coverage.

Communication Services. Defects, damages, or the failure of Products or Accessories due to any communication service or signal you may subscribe to or use with the Products or Accessories is excluded from coverage.

How to Obtain Warranty Service or Other Information?

To obtain service or information, please call:

+49 (0) 1805 938 802 in Europe

Email: motorola-mbp@tdm.de

You will receive instructions on how to ship the Products or Accessories at your expense and risk, to a BINATONE Authorised Repair Centre.

To obtain service, you must include: (a) the Product or Accessory; (b) the original proof of purchase (receipt) which includes the date, place and seller of the Product; (c) if a warranty card was included in your box, a completed warranty card showing the serial number of the Product; (d) a written description of the problem; and, most importantly; (e) your address and telephone number.

These terms and conditions constitute the complete warranty agreement between you and BINATONE regarding the Products or Accessories purchased by you, and supersede any prior agreement or representations, including representations made in any literature publications or promotional materials issued by BINATONE or representations made by any agent employee or staff of BINATONE, that may have been made in connection with the said purchase.
